Full-Stack Software Engineer

Full-stack software engineer with 3+ years of professional experience building web applications, REST services, internal tools, and operational workflows. Hands-on across React, Next.js, TypeScript, Node.js, C#/.NET, SQL, third-party integrations, testing, CI/CD, and production troubleshooting.

SKILLS

Full-Stack: React, Next.js, TypeScript, Node.js, REST APIs, Webhooks, SQL

Frontend: JavaScript, HTML5, CSS3, Tailwind CSS, responsive UI

Backend / Data: C#/.NET, PostgreSQL, MySQL, SQLite, Microservices, SFTP

Testing / Delivery: Git, GitHub Actions, CI/CD, Jest, Playwright, Vitest, AWS, Docker, Vercel

PROFESSIONAL EXPERIENCE

TechLink NM | McKinney, TX | 06/2025 - Present

Software Engineer

- Built and deployed a full-stack Next.js 16, React, and TypeScript platform supporting appointment intake, multi-step onboarding, media management, customer communication, and transactional flows.
- Designed API-driven workflows with backend validation, recovery for incomplete submissions, and failure handling across customer-facing journeys.
- Integrated Square, Cloudfare, Twilio, Resend, and Google Maps APIs with webhook handling, SMS fallback, and graceful degradation.
- Managed CI/CD workflows, Vercel environments, production debugging, and release readiness across iterative product revisions.

Anko Retail, Inc. | Seattle, WA | 06/2021 - 11/2023

Software Development Engineer

- Built and maintained microservices and REST APIs supporting inventory operations across 300+ store locations and troubleshooted issues affecting internal workflows.
- Developed internal tools for automated data-integrity testing and SFTP file transfer/processing, helping teams detect problems faster and reduce manual work.
- Created responsive internal web interfaces and wrote backend integration and unit tests to improve reliability and supportability.
- Diagnosed defects across event-driven services, validated fixes, and collaborated cross-functionally using agile, CI/CD, and trunk-based development.

UNT Cyber Forensics Lab | Denton, TX | 01/2021 - 05/2021

Software Engineer Intern

- Helped develop and test a mobile application with authentication, geolocation, and permissions-based functionality for multiple user roles.
- Implemented and validated real-time security-rating updates and user-facing workflows.

EDUCATION

Bachelor of Science in Computer Science | University of North Texas | Denton, TX | 05/2021
